There is nothing like hot croissants, yeast roll or biscuit with butter dripping on top and some great preserves mix on top of that. When the bread is placed in your mouth, there is something powerful and euphoric that moves from your mouth to your toes. Fresh hot and good bread is heavenly. The Lord's Prayer says, "Give us our daily bread," Matthew 6:19 Bread is a natural food group. It provides a portion of necessary nutrients to sustain life. Jesus said, "I am the bread of life," John 6:41. In John 6:51 Jesus said, "I am the living bread.." Jesus is that bread for everlasting life. God's word to a follower is that spiritual nutrient that will not only sustain life but, expand your life. Prepare yourself for 30 days of His freshest bread.

Many grandparents, aunts, distant relatives, foster parents and other guardians issued by the state, raising today's children. Some of these people are long past the retirement age and should be taking cruises, vacations in the summer or moved to warmer climates enjoying their latter years until they are unable to take care of themselves. Instead, they are coming to parent teacher conferences, buying school clothes and shoes, finding tutors for homework that they stopped doing long ago. Walks in the park, visits to the zoo and circus tickets were once a thing of the past, but have resurfaced so that this generation can somehow enjoy being a kid and have a better life. These are the true heroes of our generation. People who are willing to sacrifice their wants, needs and desires to be able to see the next generation survive and hopefully, thrive.

"If you've ever watched a Charlie Brown episode or movie and saw a scene in school, you will know that Charlie Brown's teacher never said words that you could actually understand. It was just rhythmic noise but, you couldn't understand the words. Secondly, have you ever received a voicemail message and the person gave their name, the date they were calling and said, "my phone number is 555-12.." and you missed the last two numbers? In both of these instances, a message was delivered but the receiver didn't receive the message that was delivered. In the book, "Message to the Masses" you'll explore ways that we can actually get that message delivered to not only your local community, but the world."
